Dreaming Of Jupiter Ted Simon 2012-12-20 Ted Simon is the author of the classic travel book JUPITER'S TRAVELS. It documents his four-year journey round the world by motorbike, travelling through Europe, Africa, South and North America, and Asia. A number one bestseller in the late 1970s, it is still regarded as one of the greatest motorcycle books - indeed, one of the greatest travel books - ever written. In 2001, at the age of 69, Ted Simon decided to retrace his journey, and DREAMING OF JUPITER is the result. It took him two and a half years - during which time he revisited all the countries he had travelled through in the 1970s. He found much had changed, and he reflects upon the increased poverty, political upheavals, environmental issues and indeed the changes in himself. But ultimately, DREAMING OF JUPITER is a hugely inspiring read with a positive message at its heart - that even at the age of 70 you can still set off on an adventure, and be surprised and excited by what life throws at you along the way.

Ultimate Motorcycles Mark Holmes 2007-03 The biggest, the rarest, the most powerful, the most expensive, and the most beautiful bikes on the planet, superbly photographed and lovingly described in great detail.

Motocourse 2020-2021 Michael Scott 2021-02-16 MOTOCOURSE 2020-2021 celebrates its 45th year of publication - and despite the World pandemic throwing the sport into chaos, what a year it was for motorcycle racing! In a thrilling MotoGP season, Marc Marquez and Honda were expected to be the dominant force once more, but an accident in the opening round saw him side-lined for much of the season and left him with but a slim chance of retaining his MotoGP crown. Other riders stepped up in his absence and shared out victories. Ducati's Andrea Dovizioso, and Yamaha's trio of Maverick Vinales, Fabio Quartararo and Franco Morbidelli all took to the top step of the podium. The emergence of KTM as a race winning machine saw both Brad Binder and Miguel Oliveira join the list of first time winners, in a close fought battle for supremacy throughout the whole of the MotoGP field. Once again, Valentino Rossi defied the years to remain at the sharp end of the grid, whilst the Suzuki pair of Alex Rins and Joan Mir both looked equally capable of adding to the list of winners in an enthralling contest for the title. Editor Michael Scott provides a no-holds-barred assessment of all the aspects of a compelling season's action. MOTOCOURSE alone has full coverage of the support classes, Moto2 and Moto3, where Italian riders Luca Marini, Estea Bastinanini, Marco Bezzecchi were contenders to clinch the Moto2 crown, whilst Albert Arenas, Ai Ogura and John McPhee hotly disputed the Moto3 title. In World Superbikes, Kawasaki's dominance was challenged by Ducati's Scott Redding, with Jonathan Rea looking to retain his championship title for the sixth successive year, ahead of the chasing pack including Alvaro Bautista, Chaz Davies and Yamaha's Michael van der Mark. No book covers the motorcycle racing world in as much detail as MOTOCOURSE, which, in addition to the two major world series covers The World Supersport Championship, The British Superbike Championship and the AMA USA Superbike series. Incredible value for money, with 304 large-format pages, bursting with over 450 stunning colour photographs from the world's finest photographers, MOTOCOURSE covers it all. No wonder MOTOCOURSE is regarded worldwide as 'The Bible of Motorcycle Racing'.

John Baldessari Matilda Olof-Ors 2020-05-18 A concise celebration of conceptualist legend John Baldessari's wry approach to image-making Over the course of his 50-year career, John Baldessari never stopped exploring the seemingly infinite ways that words and images can be manipulated to create new layers of narrative meaning in art. Initially a more traditional painter, in the 1960s Baldessari found himself drawn to a combination of text and photography as the most effective vehicles for his creative intentions. Many of Baldessari's pieces directly address the viewer with hand-painted questions about the nature of art: in What Is Painting(1966-68), Baldessari asks through the canvas, "Do you sense how all the parts of a good picture are involved with each other, not just placed side by side?" This piece in particular seems to summarize Baldessari's focus on the re-contextualization of familiar images that would define his artistic practice for years to come. Alongside reproductions of select work, this publication features a wide selection of Baldessari's own writings from 1968 to 2011, providing further insight into the myriad critical ideas already conveyed in the artist's work. Born in California, John Baldessari(1931-2020) was one of the most influential artists of the conceptual and post-conceptual movements. Baldessari taught at CalArts from 1970 to 1986 and then at UCLA until 2008, with artists such as David Salle and Mike Kelley as some of his earliest students. His commitment to "not making boring art" is evident throughout his entire oeuvre.

Ducati Motorcycles Alan Cathcart 1983

From the Sculptor's Studio Ina Cole 2021-10-21

Ducati 999 Alan Cathcart 2003 How do you replace a legend? For Ducati, the Italian motorcycle manufacturer worshiped by racers and riders all over the world, the answer was to start from scratch. When the company decided to produce a successor to its immensely popular 916/996/998 series, it allowed designer Pierre Terblanche to create a completely new bike built from the inside out. This approach resulted in a radically styled motorcycle whose improved ergonomics offer greater comfort and control, with more agile handling at all speeds. Ducati also broke with tradition by allowing two of the worlds top motorcycling writers, Alan Cathcart and Marc Cook, to document the birth of the 999-from the earliest design ideas through final production. In an industry where product plans and manufacturing techniques are usually guarded like state secrets, Cathcart and Cook were given complete access to the designers, engineers, and technicians who worked to make the 999 a superbike sensation.

Bodies in Motion Steven L. Thompson 2008

Hide/Seek Jonathan D. Katz 2010-11-02 An entirely new interpretation of modern American portraiture based on the history of sexual difference. Hide/Seek: Difference and Desire in American Portraiture, companion volume to an exhibition of the same name at the National Portrait Gallery, Smithsonian Institution, traces the defining presence of same-sex desire in American portraiture through a seductive selection of more than 140 full-color illustrations, drawings, and portraits from leading American artists. Arcing from the turn of the twentieth century, through the emergence of the modern gay liberation movement in 1969, the tragedies of the AIDS epidemic, and to the present, Hide/Seek openly considers what has long been suppressed or tacitly ignored, even by the most progressive sectors of our society: the influence of gay and lesbian artists in creating American modernism. Hide/Seek shows how questions of gender and sexual identity dramatically shaped the artistic practices of influential American artists such as Thomas Eakins, Romaine Brooks, Marsden Hartley, Georgia O'Keeffe, Charles Demuth, Jasper Johns, Robert Rauschenberg, Andrew Wyeth, Andy Warhol, Robert Mapplethorpe, and many more—in addition to artists of more recent works such as Felix Gonzalez-Torres, Glenn Ligon, Catherine Opie, and Cass Bird. The authors argue that despite the late-nineteenth-century definition and legal codification of the "homosexual," in reality, questions of sexuality always remained fluid and continually redefined by artists concerned with the act of portrayal. In particular, gay and lesbian artists—of but not fully in the society they portrayed—occupied a position of influential marginality, from which vantage point they crafted innovative and revolutionary ways of painting portraits. Their resistance to society's attempt to proscribe them forced them to develop new visual vocabularies by which to code, disguise, and thereby express their subjects' identities—and also their own. Bringing together for the first time new scholarship in the history of American sexuality and new research in American portraiture, Hide/Seek charts the heretofore hidden impact of gay and lesbian artists on American art and portraiture and creates the basis for the necessary reassessment of the careers of major American artists—both gay and straight—as well as of portraiture itself.

The Original Copy Roxana Marcoci 2010 Since its birth in the first half of the 19th century, photography has offered extraordinary possibilities of isolating works of art for study and pleasure. Through cropping, focus, angle of view, distance and lighting as well

as the ex post facto techniques of dark room manipulation, collage, montage and assemblage, photographers not only interpret the artworks they record but create stunning reinventions. The Original Copy: Photography of Sculpture, 1939 to Today presents a critical examination of the intersections between photography and sculpture. Through a selection of nearly 300 outstanding pictures by more than 100 artists from the 19th century to the present, The Original Copy explores how one medium has become implicated in the understanding of the other. Photographs reproduced in this richly illustrated volume range in subject from inanimate objects to performing bodies, and include major works by mediums most influential artists, from early modernism to the present.

Jupiter's Travels Ted Simon 2007-01-25 Jupiter's Travels -Ted Simon's astonishing 4 year motorbike journey around the world The book that inspired Ewan McGregor's Long Way Round In the late 1970s Ted Simon set off on a Triumph and rode 63,000 miles over four years through fifty-four countries in a journey that took him around the world. Through breakdowns, prison, war, revolutions, disasters and a Californian commune, he travelled into the depths of fear and reached the heights of euphoria. He met astonishing people and was treated as a spy, a welcome stranger and even a god. For Simon the trip became a journey into his own soul, and for many others - including bikers Charley Boorman and Ewan McGreggor - it provides an inspiration they will never forget. This classic text, which has informed a whole genre of travel writing in the thirty years since it was first published, will never be bettered for sheer adventure, passion, humour and honesty. Brought up in England by a German mother and a Romanian father, Ted Simon found himself impelled by an insatiable desire to explore the world. It led him to abandon an early scientific career in favour of journalism, and he has worked for several newspapers and magazines on Fleet Street and elsewhere. Ted Simon is also the author of Riding Home and The Gypsy in Me.

Long Way Round Ewan McGregor 2013-04-11 'A highly readable and spiritually uplifting book about a dream come true' Wanderlust 'Touching and memorable ... one for armchair travellers and bike freaks' Daily Mail From London to New York, Ewan and Charley chased their shadows through Europe, the Ukraine, Kazakhstan, Mongolia and Russia, across the Pacific to Alaska, then down through Canada and America. But as the miles slipped beneath the tyres of their big BMWs, their troubles started. Exhaustion, injury and accidents tested their strength. Treacherous roads, unpredictable weather and turbulent politics challenged their stamina. They were chased by paparazzi in Kazakhstan, courted by men with very large guns in the Ukraine, hassled by the police, and given bulls' testicles for supper by Mongolian nomads. And yet despite all these obstacles they managed to ride more than twenty thousand miles in four months, changing their lives forever in the process. As they travelled they documented their trip, taking photographs, and writing diaries by the campfire. Long Way Round is the result of their adventures - a fascinating, frank and highly entertaining travel book about two friends riding round the world together and, against all the odds, realising their dream.

Letters from a Nut Ted L. Nancy 2020-10-13 Who is Ted L. Nancy? He's a superstitious Vegas high-roller who wants to gamble at a casino in his lucky shrimp outfit... He's the genius inventor of "Six Day Underwear"... He's a stage actor who only travels while dressed as a stick of butter... He is, in reality, a twisted prankster—a supremely off-kilter alter ego who sends patently ridiculous letters to corporate honchos, entertainment conglomerates, national publications, politicians, celebrities and heads of state. His innocent requests, queries, complaints, demands, and suggestions are so absurd it is amazing they fool anyone—but often the deadpan responses he receives are even more hilarious: "Dear Mr. Nancy, It is not often that we receive such enthusiastic support for the paper bag." —The Paper Bag Council "On behalf of Greyhound, there should be no problem traveling while in your butter costume." —Greyhound Bus Lines "I look forward to working with you to create a better future for this great nation." —Vice President Al Gore Letters From A Nut is an insanely inspired, truly madcap collection of Nancy correspondence, a wet-yourself-in-a-public place funny aggregation of official—and officially certifiable—requests, complaints, fan mail and questions that could not possibly have been taken seriously...but, amazingly, were.

Riding in the Zone Ken Condon 2019-10-15 Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set.
