The Startup section gives Camera Setup and Care. The next sections provide continuous guidance through 3 learning phases: 1. The Orientation section describes the control and menu features with illustrated locations and concise descriptions of function, settings, operation and references to detail descriptions. 2. The Operation section gives the user a choice of 4 complete and independent starting points: There are 2 Basic subsections, Quick and Detailed, for Point and Shoot operation and Creative subsections, Quick and Detailed, for the Complete Control mode of operation. Each Detailed subsection includes the corresponding Quick subsection to eliminate looking back. Each subsection is sequenced in Photo Session order: Displays, Session Prep/Field Setup, Photo Features (Shooting Mode,

The Effective Use section continues the user guidance beyond the mechanics and the Reference section covers Problems, Playback and Printing. The manual has laminated covers for durability and a coil binding so it will stay open.

Activating Your 5D Frequency Judith Corvin-Blackburn 2020-05-

05 A guide to navigating the transition from 3D to 5D and reclaiming the ancient powers of love, creativity, and unity consciousness lying dormant in our DNA • Details what is happening psychologically, emotionally, and socially with the dimensional shift and provides a vision of life on 5D Earth • Offers transformative activations and tools to meet the psycho-spiritual demands of this transition, including identifying and integrating the shadow self, healing emotional wounds, and discovering higher frequencies • Explains how to navigate the Ascension process, especially in terms of handling emotions, resistances, and fears, and how to welcome these new frequencies We are in a time of great transition. Higher frequency light is flooding our planet, awakening large numbers to reclaim our original nature as fifth-dimensional humans. As 5D humans, we live from our heart's wisdom, from Unity Consciousness, unconditional love, and unbridled creativity. 5D humans have highly developed inner senses of empathy, telepathy, clairvoyance, and clairsentience--qualities that are opening for many as we go through this dimensional shift. While this journey is exciting, its demands can be overwhelming. In this hands-on guide to activating the 5D potential lying dormant in our DNA, Judith Corvin-Blackburn shows us how to navigate the Ascension process, including how to handle emotions, resistances, and

fears and welcome our 5D frequencies. Using the 9-dimensional-axis theory first explored by Barbara Hand Clow, the author details what is happening psychologically, emotionally, and socially with the dimensional shift, including revealing the denser, pain-inducing frequency of being a 3D human and the challenges of the 4th dimension. She offers transformative activations and tools to explore and master the psycho-spiritual demands of this transition, including identifying and integrating the shadow self, healing emotional wounds that hold us back, and discovering higher frequencies and the cellular vibration of unconditional love and Oneness. Once we reclaim ourselves as loving, conscious, creator beings and realize we are part of a global 5D team, together we can consciously help co-create a New Earth by anchoring the 5D frequency in both our inner and outer worlds.
