Against Amnesia Nancy J. Peterson 2001-04-23 "An important study in American literature."--Novel

The Way We Never Were Stephanie Coontz 2016-03-29 The definitive edition of the classic, myth-shattering history of the American family Leave It to Beaver was not a documentary, a man's home has never been his castle, the "male breadwinner marriage" is the least traditional family in history, and rape and sexual assault were far higher in the 1970s than they are today. In The Way We Never Were, acclaimed historian Stephanie Coontz examines two centuries of the American family, sweeping away misconceptions about the past that cloud current debates about domestic life. The 1950s do not present a workable model of how to conduct our personal lives today, Coontz argues, and neither does any other era from our cultural past. This revised edition includes a new introduction and epilogue, exploring how the clash between growing gender equality and rising economic inequality is reshaping family life, marriage, and male-female relationships in our modern era. More relevant than ever, The Way We Never Were is a potent corrective to dangerous nostalgia for an American tradition that never really existed.

The Insider Nancy Woloch 2022-03-08 Virginia C. Gildersleeve was the most influential dean of Barnard College, which she led from 1911 to 1947. An organizer of the Seven College Conference, or "Seven Sisters," she defended women's intellectual abilities and the value of the liberal arts. She also amassed a strong set of foreign policy credentials and, at the peak of her prominence in 1945, served as the sole woman member of the U.S. delegation to the drafting of the United Nations Charter. But her accomplishments are undercut by other factors: she had a reputation for bias against Jewish applicants for admission to Barnard and early in the 1930s voiced an indulgent view of the Nazi regime. In this biography, historian Nancy Woloch explores Gildersleeve's complicated career in academia and public life. At once a privileged insider, prone to elitism and insularity, and a perpetual outsider to the sexist establishment in whose ranks she sought to ascend, Gildersleeve stands out as richly contradictory. The book examines her initiatives in higher education, her savvy administration, her strategies for gaining influence in academic life, the ways that she acquired and deployed expertise, and her drive to take part in the world of foreign affairs. Woloch draws out her ambivalent stance in the women's movement, concerned with women's status but opposed to demands for equal rights. Tracing resonant themes of ambition, competition, and rivalry, *The Insider* masterfully weaves Gildersleeve's life into the histories of education, international relations, and feminism.

Nancy Reagan Pierre-Marie Loizeau 2004 The public perception of the First Lady has evolved through the years and the press and scholars are beginning to take note of the essential role presidents' wives have played in the Administration and in the nation as a whole. Their participation in the country's historical, philosophical and sociological experience has made them "First Women" and "First Partners". They have been identified as standard bearers of the whole female community, as they have both pioneered and reflected women's role in American society. The twentieth century in particular has seen the construction of their image in the media and highlighted the evolution of their political role at the heart of presidential power. Has Nancy Reagan been underrated, misunderstood, unfairly criticised? Have her qualities (clear-sightedness, rigour, moral rectitude, empathy, her positive image abroad, etc.) been too often ignored? To what extent has she expanded or limited the undefined institution of the First Lady? The book seeks to explore the ambiguity that underlies this First Lady's multiple facets. It intends to shed light on the particularities of one of the most controversial yet exceptional women of the twentieth century and get a deeper insight into the complex role of the (first) lady they called "the woman behind the man".

Nancy Batson Crews Sarah Byrn Rickman 2009-08-02 A riveting oral history/biography of a pioneering woman aviator. This is the story of an uncommon woman--high school cheerleader, campus queen, airplane pilot, wife, mother, politician, business-woman--who epitomizes the struggles and freedoms of women in 20th-century America, as they first began to believe they could live full lives and demanded to do so. World War II offered women the opportunity to contribute to the work of the country, and Nancy Batson Crews was one woman who made the most of her privileged beginnings and youthful talents and opportunities. In love with flying from the time she first saw Charles Lindbergh in Birmingham, (October 1927), Crews began her aviation career in 1939 as one of only five young women chosen for Civilian Pilot Training at the University of Alabama. Later, Crews became the 20th woman of 28 to qualify as an "Original" Women's Auxiliary Ferrying Squadron (WAFS) pilot, employed during World War II shuttling P-38, P-47, and P-51 high-performance aircrafts from factory to staging areas and to and from maintenance and training sites. Before the war was over, 1,102 American women would qualify to fly Army airplanes. Many of these female pilots were forced out of aviation after the war as males returning from combat theater assignments took over their roles. But Crews continued to fly, from gliders to turbojets to J-3 Cubs, in a postwar career that began in California and then resumed in Alabama. The author was a freelance journalist looking to write about the WASP (Women Airforce Service Pilots) when she met an elderly, but still vital, Nancy Batson Crews. The former aviatrix held a reunion of the

surviving nine WAFS for an interview with them and Crews, recording hours of her own testimony and remembrance before Crews's death from cancer in 2001. After helping lead the fight in the '70s for WASP to win veteran status, it was fitting that Nancy Batson Crews was buried with full military honors.

The Girls' History and Culture Reader Miriam Forman-Brunell 2011 The Girls' History and Culture Reader: The Nineteenth Century provides scholars, instructors, and students with the most influential essays that have defined the field of American girls' history and culture. A relatively new and energetic field of inquiry, girl-centered research is critical for a fuller understanding of women and gender, a deeper consideration of childhood and adolescence, and a greater acknowledgment of the significance of generation as a historical force in American culture and society. Bringing together work from top scholars of women and youth, The Girls' History and Culture Reader: The Nineteenth Century addresses topics ranging from diary writing and toys to prostitution and slavery. Covering girlhood and the relationships between girls and women, this pioneering volume tackles pivotal themes such as education, work, play, sexuality, consumption, and the body. The reader also illuminates broader nineteenth-century developments—including urbanization, industrialization, and immigration--through the often-overlooked vantage point of girls. As these essays collectively suggest, nineteenth-century girls wielded relatively little political or social power but carved out other spaces of self-expression. Contributors are Carol Devens, Miriam Forman-Brunell, Jane H. Hunter, Anya Jabour, Anne Scott MacLeod, Susan McCully, Mary Niall Mitchell, Leslie Paris, Barbara Sicherman, Carroll Smith-Rosenberg, Christine Stansell, Nancy M. Theriot, and Deborah Gray White.

"Nancy Cott's *Bonds of Womanhood* is not just a pioneer work in women's history. It is a classic. Despite all the work published since, it is still an essential starting place for understanding New England in the early republic."—Laurel Thatcher Ulrich "Cott, still the best historian of women's bonds and bondage, foresaw twenty years ago the tendency of domesticity's bonds to lead both to feminism and the far right. An essential book for understanding today's women."—Carolyn Heilbrun

Nancy Love and the WASP Ferry Pilots of World War II Sarah Byrn Rickman 2008 She flew the swift P-51 and the capricious P-38, but the heavy, four-engine B-17 bomber and C-54 transport were her forte. This is the story of Nancy Harkness Love who, early in World War II, recruited and led the first group of twenty-eight women to fly military aircraft for the U.S. Army. When the United States entered World War II, the Army needed pilots to transport or "ferry" its combat-bound aircraft across the United States for overseas deployment and its trainer airplanes to flight training bases. Most male pilots were assigned to combat preparation, leaving few available for ferrying jobs. Into this vacuum stepped Nancy Love and her civilian Women's Auxiliary Ferrying Squadron (WAFS). Love had advocated using women as ferry pilots as early as 1940. Jackie Cochran envisioned a more ambitious plan, to train women to perform a variety of the military's flight-related jobs stateside. The Army implemented both programs in the fall of 1942, but Jackie's idea piqued General Hap Arnold's interest and, by summer 1943, her concept had won. The women's programs became one under the name Women Airforce Service Pilots (WASP), with Cochran as the Director of Women Pilots and Love as the Executive for WASP. Nancy Love believed that the women attached to the military needed to be on equal footing with the men and given the same opportunities to prove their abilities and mettle. Young women serving today as combat pilots owe much to Love for creating the opportunity for women to serve. Her foresight and tenacity nearly seventy years ago helped ensure their future. Now author Sarah Byrn Rickman, aviation historian, presents the first full-length biography of Nancy Love and her role in the WAFS and WASP programs. Her book will appeal to all with a love of flight.
