Global Expectations for Korean Unification Kyuryoon Kim et al. 2014-12-31 The current research aims to provide analytical understandings on the costs and benefits of Korean unification from political, social, and economic aspects. Upon the two years of earlier works, we constructed an analytical model encompassing both spatial and temporal dimensions of the unification process, and built comprehensive architecture, 'the Guiding Type of Unification.' Based on this model, we have broaden the scope of the research by collecting diverse perspectives from the worldwide experts of the leading countries. We expect to observe the global trends of world governance. Indeed, the increasing importance of Group of Twenty (G20) countries in managing global problems reflects both political and social aspects of the changes occurring in global governance. Another reason for this would be South Korea's diversified international relations in the recent years. Hence, it seems necessary to take a closer look on the international dimensions of Korean unification. In this vein, we requested thirteen experts of the leading countries to express their opinions on Korean unification. In order to collect international perspectives in a coordinated manner, scholars were provided with a guideline to include their perspectives on the expected effects of Korean Unification and the potential roles of their countries during and after the process. Participants were also asked to present candid implications for Korean unification. Argentina, whose food supply is abundant, laid stress on providing assistance in terms of food security during the unification. Australia, who has special concerns in Asian security, suggested a comprehensive support not only as a mediator but also as one of the U.S. alliance. Due to remote distance to Asia, Brazil is relatively less affected by the unification. Brazil, however, expressed that it has a keen interest in transmission of its experience regarding nuclear issues with Argentina. Similar to Brazil's stance, the effects of the unification influence is indirect to Canada. Nevertheless, Canada could play a role in providing humanitarian assistance, and could be a potential destination for North Korean refugee resettlement. France, one of the most influential members in the European Union and the United Nations, made a suggestion to promote institution building in East Asia that can promote stability in the region. Germany, the only country who had experienced unification, presented its interest in participating actively in the process of Korean unification through public and private sectors. India assumed that the unification of Korea leads to the denuclearization of the peninsula, and would see this as a positive sign for stability of the region, since it would limit or end North Korea's nuclear weapon transmits with Pakistan. Indonesia could contribute to regional peace and stability through ASEAN and its extensions as South Korea can call upon Indonesia to engage in the peace process. Italy, who especially pointed out the role of European Union as a whole, is well-poised to contribute to economic and social development with North Korea through technical assistance. Mexico can, and expressed its willingness to play an active role in the unification process through international organizations. South Africa, who had been successful in national reconciliation and denuclearization, is very likely to provide its experience and can be a strong voice for the NPT and arms control in the international society. Advocating South Korea's policy in Korean unification, Turkey explicitly mentioned that it will side with Seoul if there is a possible conflict in the peninsula. The author emphasized that the international community must be well-informed on how Korean unification will take place. Last but not least, the United Kingdom author suggested that Koreans will have to resolve emotional conflicts for reconciliation. Considering how both Koreas have dealt educational matters concerning the division of the peninsula, this may face a major challenge in the future generation. Thirteen countries' diversely manifested positions on the unifying process are indicative of perceptual change that the issue of Korean unification is no longer a regional issue, but an international one, in which multiple actors have their own stakes within. Upon the previously suggested implications, we categorized the countries into three groups: bystanders, supporters, and interveners. This categorization reflects the assertiveness of each country, or coercive level of each country's assistance instrumented towards the two Koreas during the unifying process. In the conclusion, based on our final analysis, we provided recommendations for the policy makers. First, diversified diplomacy creates an amicable international environment for unification policies beyond the power politics of the Four Powers. Second, activation of leading countries' roles is strategically advantageous to activate the meaningful roles of these leading countries to minimize the Four Powers' concerns. Third, emphasizing the formation of multilateral system would provide leading countries with an additional motivation to actively participate in the unification process. Furthermore, multilateral efforts to achieve Korean unification are also expected to contribute to the furtherance of democratic

elements in the dynamics of international relations as a whole. Fourth, it is now high time for us to conduct more public diplomacy by devising new and creative methodologies. The global research project of this kind could be one of the most effective public diplomatic tools. Lastly, the unification between two Koreas can no longer be considered as a regional issue within Northeast Asia since others, including the leading countries, conceive their national interests along the process of unification on the Korean peninsula in diverse ways. Overall, thirteen countries' recommendations underline the significance of collective efforts in addressing the unification process and suggest South Korea to learn lessons from the experience that they have undergone in the past. Korea, Are You at Peace? J. A. V. Simson 2013-08-12 Is there hope for peace on the Korean peninsula? These deeply personal stories of two Western women reveal the almost unimaginable transformation of Korea from a culturally and politically united peninsula at the end of the nineteenth century into today's dangerously divided land. These two women's experiences bracket the twentieth century, a dark time in Korean history, when the peninsula was occupied by Japan, divided into North and South, and wracked by internal war—becoming an unwilling pawn of Cold-War superpowers. Despite everything, South Korea has emerged as an international economic success story, whereas North Korea has become a totalitarian ideological nightmare in which leaders spew the rhetoric of aggression and develop nuclear weapons. What would it take to heal this political schizophrenia that endangers our entire world?

Korea Hermann Lautensach 2012-12-06 Lautensach[s "Korea" is a regional geography, the most comprehensive one ever written on Korea in a western language. It was written before the country was divided and provides a wealth of information on the entire country, particularly on the north, something that has been difficult to obtain in the West in the past forty years. Unfortunately, only very few volumes survived the end of World War II, so that it has been very difficult to get hold of the book. Lautensachh[s "Korea" is considered a classical example of regional geography.

5,000 Years of Korean Martial Arts R. Barry Harmon 2008-08 "5000 Years of Korean Martial Art" is a one of a kind history book. No other Korean martial art history book on the market is as complete and in-depth. Citing historical references for support, and featuring many rare pictures and some images that are not available from any other published source. This book attempts to place Korean martial arts in it's proper historical perspective in relationship to Chinese and Japanese martial arts. Both Chinese and Japanese martial arts have well known and documented histories, so much so that they have completely overshadowed Korean martial art history. I have attempted to compensate for that overshadowing by focusing on the successes of the Korean martial arts throughout history. Barry Harmon has a BA degree in "Psychosomatics and Alternative Healing Studies" from San Francisco State University. He has an acupuncture degree from the San Francisco College of Acupuncture and Oriental Medicine. He is certified nationally through the NCCAOM and license to practice acupuncture in Texas. In addition to his academics, he has been training and studying martial arts since 1965 and Kuk Sool Won since 1971. In 2002 KBS (Korean Broadcasting System) featured Master Harmon and his family in an hour long documentary which was aired throughout South Korea. Master Harmon currently holds an 9th degree black belt in Kuk Sool Won and has been featured in numerous martial arts magazines. In 2005 he was chosen by Tae Kwan Do Times magazine as instructor of the year. He has taught martial arts in many countries around the world including South Korea."

Three Tigers, One Mountain Michael Booth 2020-04-14 From the author of *The Almost Nearly Perfect People*, a lively tour through Japan, Korea, and China, exploring the intertwined cultures and often fraught history of these neighboring countries. There is an ancient Chinese proverb that states, "Two tigers cannot share the same mountain." However, in East Asia, there are three tigers on that mountain: China, Japan, and Korea, and they have a long history of turmoil and tension with each other. In his latest entertaining and thought provoking narrative travelogue, Michael Booth sets out to discover how deep, really, is the enmity between these three "tiger" nations, and what prevents them from making peace. Currently China's economic power continues to grow, Japan is becoming more militaristic, and Korea struggles to reconcile its westernized south with the dictatorial Communist north. Booth, long fascinated with the region, travels by car, ferry, train, and foot, experiencing the people and culture of these nations up close. No matter where he goes, the burden of history, and the memory of past atrocities, continues to overshadow present relationships. Ultimately, Booth seeks a way forward for these closely intertwined, neighboring nations. An enlightening, entertaining and sometimes sobering journey through China, Japan, and Korea, *Three Tigers, One Mountain* is an intimate and in-depth look at some of the world's most powerful and important countries.

Dubious Gastronomy Robert Ji-Song Ku 2013-12-31 California roll, Chinese take-out, American-made kimchi, dogmeat, monosodium glutamate, SPAM—all are examples of what Robert Ji-Song Ku calls "dubious" foods. Strongly associated with Asian and Asian American gastronomy, they are commonly understood as ersatz, depraved, or simply bad. In *Dubious Gastronomy*, Ku contends that these foods share a spiritual fellowship with Asians in the United States in that the Asian presence, be it culinary or corporeal, is often considered watered-down, counterfeit, or debased manifestations of the "real thing." The American expression of Asianness is defined as doubly inauthentic—as insufficiently Asian and unreliably American when measured against a largely ideological if not entirely political standard of authentic Asia and America. By exploring the other side of what is prescriptively understood as proper Asian gastronomy, Ku suggests that Asian cultural expressions occurring in places such as Los Angeles, Honolulu, New York City, and even Baton Rouge are no less critical to understanding the meaning of Asian food—and, by extension, Asian people—than culinary expressions that took place in Tokyo, Seoul, and Shanghai centuries ago. In critically considering the impure and hybridized with serious and often whimsical intent, *Dubious Gastronomy* argues that while the notion of cultural authenticity is troubled, troubling, and troublesome, the apocryphal is not necessarily a bad thing: The dubious can be and is often quite delicious. *Dubious Gastronomy* overlaps a number of disciplines, including American and Asian American studies, Asian diasporic studies, literary and cultural studies, and the burgeoning field of food studies. More importantly, however, the book fulfills the critical task of amalgamating these areas and putting them in conversation with one another. Written in an engaging and fluid style, it promises to appeal a wide audience of readers who seriously enjoys eating—and reading and thinking about—food.

Korea's Place in the Sun: A Modern History (Updated Edition) Bruce Cumings 2005-09-17 "Passionate, cantankerous, and fascinating. Rather like Korea itself."--Nicholas D. Kristof, New York Times Book Review Korea has endured a "fractured, shattered twentieth century," and this updated edition brings Bruce Cumings's leading history of the modern era into the present. The small country, overshadowed in the imperial era, crammed against great powers during the Cold War, and divided and decimated by the Korean War, has recently seen the first real hints of reunification. But positive movements forward are tempered by frustrating steps backward. In the late 1990s South Korea survived its most severe economic crisis since the Korean War, forcing a successful restructuring of its political economy. Suffering through floods, droughts, and a famine that cost the lives of millions of people, North Korea has been labeled part of an "axis of evil" by the George W. Bush administration and has renewed its nuclear threats. On both sides Korea seems poised to continue its fractured existence on into the new century, with potential ramifications for the rest of the world.

Teaching in the Land of Kimchi Melissa Christine Karpinski 2010-03-01

A History of Korea Jinwung Kim 2012 Contemporary North and South Korea are nations of radical contrasts: one a bellicose totalitarian state with a failing economy; the other a peaceful democracy with a strong economy. Yet their people share a common history that extends back more than 3,000 years. In this comprehensive new history of Korea from the prehistoric era to the present day, Jinwung Kim recounts the rich and fascinating story of the political, social, cultural, economic, and diplomatic developments in Korea's long march to the present. He provides a detailed account of the origins of the Korean people and language and the founding of the first walled-town states, along with the advanced civilization that existed in the ancient land of "Unified Silla." Clarifying the often complex history of the Three Kingdoms Period, Kim chronicles the five-century long history of the Choson dynasty, which left a deep impression on Korean culture. From the beginning, China has loomed large in the history of Korea, from the earliest times when the tribes that would eventually make up the Korean nation roamed the vast plains of Manchuria and against whom Korea would soon define itself. Japan, too, has played an important role in Korean history, particularly in the 20th century; Kim tells this story as well, including the conflicts that led to the current divided state. The first detailed overview of Korean history in nearly a quarter century, this volume will enlighten a new generation of students eager to understand this contested region of Asia.

Understanding the Korean War Arthur H. Mitchell 2013-07-30 This is a study of the Korean War of 1950–1953 from the inside—the nuts and bolts of armed conflict. The perspective is American, with the principal focus on the relationships of the people involved: North and South Koreans, the Chinese and Soviets, and how the U.S. and its allies engaged with them all. The lives of ordinary soldiers are examined—U.S. forces, with attention paid to the other side as well. The book examines such important aspects of military operations as supplies, equipment and weapons, tactics and strategy, intelligence, and psychological warfare, as well as the effective elimination of racial segregation in the U.S. military. Also studied is the vexing matter of prisoners of war, on both sides. Finally, there is an effort to fit Korea into the generalities of American military experience in Asia, from the war with Japan to Vietnam.

TRAVELS IN THE LAND OF JUCHE KOREA ,1992-2017. -Personal recollections of visiting the Democratic People's Republic of Korea -travel notes and a bit of autobiographical stuff
Dermot Hudson 2018-11-14 This is an account of my past visit to the Democratic People's Republic of Korea, the land of Juche, from 1992 to 2017. It is my hope that this book will contribute to a greater understanding of the Democratic People's Republic of Korea and the Juche Idea, and, also an understanding of the work of the Juche Idea Study Group of England, the Association for the Study of Songun Politics and the Korean Friendship Association. Moreover I hope that my accounts of visiting the DPRK will demolish some of the horrendous rubbish written by reactionary right wing hack writers about People's Korea. I have tried to write the book in a frank and candid manner but also in a lively and amusing style.

Travels in the Land of Hunger Domenico Italo Composto-Hart 2019-07-26 In the spring of 2004 - after living in Tokyo, Japan for over three years pursuing a career as a freelance musician - science fiction and fantasy author Domenico Italo Composto-Hart set off on a half-year backpacking journey through the lands of East and Southeast Asia, Siberia, Central Russia, the Baltic states, the Nordic countries, and Eastern and Western Europe. Traveling by foot, bus, train, and boat - and seeing the world through the analytical lens of anthropology, archaeology, and economics - Domenico documents, researches, and deciphers the developing nations he encounters as they rise through the turbulence of unregulated Western capitalism and globalization. Travels in the Land of Hunger is the author's reflective account of the dark, long-lasting impact of Western colonialism and imperialism, the Vietnam War, the Khmer Rouge regime, the 1997 Asian financial crisis, and the sex tourism and sex trafficking industries in Southeast and East Asia. It is also a narrative of finding exotic beauty, inspiration, inner strength, and unexpected love.

Made in Korea Richard M. Steers 2013-08-21 American business folklore is awash with the adventures of successful entrepreneurs. Still, most of these stories are about Americans, neglecting important and courageous entrepreneurs from other countries. Made in Korea recounts the story of how Chung Ju Yung rose from poverty to build one of the world's largest and most successful building empires - Hyundai - through a combination of creative thinking, tenacity, timing, political skills, and a business strategy that few competitors ever understood. Chung entered the shipbuilding business with no experience and went on to create the world's largest shipyard. He began making automobiles when foreign experts unanimously predicted he would fail, and he started a global construction company that has built some of today's greatest architectural wonders. He even convinced the International Olympic Committee to select

South Korea over Japan as the site for the highly successful 1988 Olympics. Unlike most CEO's of major firms, Chung has always preferred the company of his workers to that of the global executive elite. Hard work, creativity and a capacity to never give up - this is the essence of Chung's life. In each of his ventures, he exhibited a sheer determination to succeed, regardless of the obstacles, and he worked tirelessly to instil this drive in all of his employees. Even today, in the midst of Korea's worst economic crisis in over four decades, Chung's company is busy implementing plans to emerge as an even stronger contender in the world economy. Illustrated with 32 pages of colour photographs not previously seen in the West, including photos of Chung's recent historic visit to North Korea in 1998, Made in Korea takes stock of Chung's entire life, highlighting both his contributions to society and the lessons his work can teach to aspiring entrepreneurs.
