The Politically Incorrect Guide to the Presidents Steven F. Hayward 2012-02-13 Larry Schweikart, a retired history professor, is ready to set the record straight on the American presidents. He goes through each of the first 26 presidents from Washington to Taft and debunks myths, lies, and fake news made fact by the uninformed. Discover why George Washington favored American isolationism; James Madison supported states' rights; what Lincoln promised to Southerners about fugitive slaves; and why nineteenth-century presidents were the last to understand the true role of government. So what made these presidents so much better than the ones America has now? Schweikart argues that recent commanders-in-chief have welcomed crises to advance their own partisan agenda, defied the separation of powers the Founders carefully constructed to preserve the Republic, and given us every reason to doubt they take the country's interests to heart.

Communities in Action National Academies of Sciences, Engineering, and Medicine 2017-04-27 In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

The Presidents and the Constitution Ken Gormley 2016-05-10 In this sweepingly ambitious volume, the nation's foremost experts on the American presidency and the U.S. Constitution join together to tell the intertwined stories of how each American president has confronted and shaped the Constitution. Each occupant of the office—the first president to the forty-fourth—has contributed to the story of the Constitution through the decisions he made and the actions he took as the nation's chief executive. By examining presidential history through the lens of constitutional conflicts and challenges, The Presidents and the Constitution offers a fresh perspective on how the Constitution has evolved in the hands of individual presidents. It delves into key moments in American history, from Washington's early battles with Congress to the advent of the national security presidency under George W. Bush and Barack Obama, to reveal the dramatic historical forces that drove these presidents to action. Historians and legal experts, including Richard Ellis, Gary Hart, Stanley Kutler and Kenneth Starr, bring the Constitution to life, and show how the awesome powers of the American presidency have been shaped by the men who were granted them. The book brings to the fore the overarching constitutional themes that span this country's history and ties together presidencies in a way never before

accomplished. Exhaustively researched and compellingly presented, *The Presidents and the Constitution* shines new light on America's brilliant constitutional and presidential history.

*The Jazz Age President* Ryan S. Walters 2022-02-15 "Presidents are ranked wrong. In *The Jazz Age President: Defending Warren G. Harding*, Ryan Walters mounts a case that Harding deserves to move up—and supplies the evidence to make that case strong. -Amity Shlaes, bestselling author of *Coolidge* He's the butt of political jokes, frequently subjected to ridicule, and almost never absent a "Worst Presidents" list where he most often ends up at the bottom. Historians have labeled him the "Worst President Ever," "Dead Last," "Unfit," and "Incompetent," to name but a few. Many contemporaries were equally cruel. H. L. Mencken called him a "nitwit." To Alice Roosevelt Longworth, he was a "slob." Such is the current reputation of our 29th President, Warren Gamaliel Harding. In an interesting survey in 1982, which divided the scholarly respondents into "conservative" and "liberal" categories, both groups picked Harding as the worst President. But historian Ryan Walters shows that Harding, a humble man from Marion, Ohio, has been unfairly remembered. He quickly fixed an economy in depression and started the boom of the Roaring Twenties, healed a nation in the throes of social disruption, and reversed America's

interventionist foreign policy.
