The Forger's Spell Edward Dolnick 2008-06-24 Profiles the dramatic art hoax through which a small-time Dutch painter conned a reviled Nazi leader by creating works that impersonated those of famed artist Jan Vermeer, a seven-year deception during which the forger hid his mediocre artistic abilities through psychologically manipulative practices. 30,000 first printing.

Introduction to English Phonetics Richard Ogden 2017-02-06 The second edition of this distinguished textbook introduces undergraduates to the concepts, terminology and representations needed for an understanding of how English is pronounced around the world. Assuming no prior knowledge, this textbook guides the reader through the vocal tract and explains how the sounds of speech are made, offering an accessible and expanded introduction to areas including transcription, vowels and acoustic analysis. As far as possible, it uses naturally-occurring conversational speech so that readers are familiar with the details of everyday talk (and not just the careful pronunciations presented in dictionaries.) The book also includes a new concluding chapter that works through a piece of spoken data to show the reader how a more complete phonetic analysis can be conducted. Examples are taken from around the English-speaking world, including North America, Australia, New Zealand and varieties of British English. The book takes an open-minded approach to what sounds of English might be significant for making meaning, and highlights the significance of word meaning, morphology, sociolinguistics and conversational interaction in phonetic analysis.

Cataract City Craig Davidson 2014-02-06 Cataract City, a dead-end border town overlooking Niagara Falls. Owen Stuckey and Duncan Diggs are fast friends as kids - united by wrestling, go-karts, and metal bands - but as they grow into young men, their once simple affection competes with the tensions created by their respective circumstances. Owen, born to relative privilege, seems destined to get out of the city, while Duncan, honest but hard, is hurtling along the rails towards a future working the assembly line at the soulless biscuit factory, The Bisk. As Duncan becomes more and more desperate to escape, he finds himself at opposite ends of the law to Owen, and as the coils of the city creep ever tighter around the two friends, they find themselves struggling not to break free, but simply to survive.

Courageous Dreaming Alberto Villoldo 2009-03-01 Modern physics tells us that we're dreaming the world into being with every thought. *Courageous Dreaming* tells us how to dream our world with power and grace. The ancient shamans of the Americas understood that we're not only creating our experience of the world, but are dreaming up the very nature of reality itself—that is, "life is but a dream." When you don't dream your life, you have to settle for the nightmare being dreamed by others. This book shows how to wake up from the collective nightmare and begin to dream a life of courage and grace, a sacred dream that shamans throughout time have known and served. Alberto Villoldo reveals ancient wisdom teachings that explain how to birth reality from the invisible matrix of creation; and reveals how we can interact with this matrix to dream a life of peace, health, and abundance. He shows us that courage is all that is required to create the joy we desire!

National Parks Ian Shive 2011-03-01 An oversized photographic tribute to national parks considers their reflection of both the natural world and the American spirit, in a lavishly illustrated survey that offers insight into the diversity of such subjects as the Appalachian Trail, Mount McKinley, and Alaska's Denali.

The Perils of Pleasure Julie Anne Long 2008-01-29 A rescued rogue . . . Scandal has rocked the city of London. Colin Eversea, a handsome, reckless unapologetic rogue is sentenced to hang for murder and, inconveniently for him, the only witness to the crime disappears. Then again, throughout history, the Everseas have always managed to cheat fate in style: Colin is snatched from the gallows by a beautiful, clever mercenary. A captivating captor. . . Cool-headed, daring Madeleine Greenway is immune to Colin's vaunted charm. Her mission is not to rescue Colin but to kidnap him, and to be paid handsomely for it. But when it becomes clear that whoever wants Colin alive wants Madeline dead, the two become uneasy allies in a deadly race for truth. Together, they'll face great danger—and a passion neither can resist.

Algorithmic Foundations of Robotics IX David Hsu 2010-11-18 Robotics is at the cusp of dramatic transformation. Increasingly complex robots with unprecedented autonomy are finding new applications, from medical surgery, to construction, to home services. Against this background, the algorithmic foundations of robotics are becoming more crucial than ever, in order to build robots that are fast, safe, reliable, and adaptive. Algorithms enable robots to perceive, plan, control, and learn. The design and analysis of robot algorithms raise new fundamental questions that span computer science, electrical engineering, mechanical engineering, and mathematics. These algorithms are also finding applications beyond robotics, for example, in modeling molecular motion and creating digital characters for video games and architectural simulation. The Workshop on Algorithmic Foundations of Robotics (WAFR) is a highly selective meeting of leading researchers in the field of robot algorithms. Since its creation in 1994, it has published some of the field's most important and lasting contributions. This book contains the proceedings of the 9th WAFR, held on December 13-15, 2010 at the National University of Singapore. The 24 papers included in this book span a wide variety of topics from new theoretical insights to novel applications.

Swing Your Sword Mike Leach 2011-07-07 Newly-minted Mississippi State head coach Mike Leach tells his captivating story—from rural Wyoming to law school to the upper echelons of the SEC. *SWING YOUR SWORD* is the first ever book by one of the most fascinating and successful coaches in sports today. A maverick who took an unlikely path to coaching through law school, Mike Leach talks about his unorthodox approach to coaching and the choices that have brought him success throughout his career. A lover of the game who started creating formations and drawing his own plays as a kid, Leach took his Texas Tech Red Raiders to numerous bowl games, achieving the #2 slot in national rankings and being voted 2008 Coach of the Year before being unceremoniously fired at the end of the 2009 season. The scandalous nature of his dismissal created a media frenzy and began a personal battle between Leach and his accusers that remains unresolved.
