Landscape Data Manual James M. Griffin 1972

General William E. DePuy Henry G. Gole 2008-09-26 Considered one of most influential U. S. military officers of the twentieth century, William E. DePuy (1919--1992) developed the education and training program that regenerated the U.S. Army after the Vietnam War. Henry G. Gole draws from sources such as

transcripts and letters in DePuy's personal papers, interviews with those who knew him best, and secondary literature to trace DePuy's life from child to decorated officer to commander of Training and Doctrine Command. General William E. DePuy: Preparing the Army for Modern War is the first book-length biography of the important figure who revolutionized military training and created a modern program for doctrine, education, and combat development that is still used today.

EBay the Smart Way Joseph T. Sinclair 2005 A guide to the online auction house explains how to navigate the eBay Web site, advertise items, place online bets, evaluate buyers and sellers, offer customer services, and build a profitable e-commerce business.

MGB Electrical Systems Rick Astley 2013-08-19 This book is essential reading for every MGB enthusiast. The mechanical aspects and the restoration of the vehicle have been written about in numerous publications but the so often maligned electrical systems has never before been comprehensively covered. For those new to vehicle electrical systems the book provides a simple primer using mechanical analogies. Each system in the car has its own chapter, with simple and uncluttered circuit diagrams in which each wire can be seen in its real colours. More than a how-to-do guide, the book also explains the “why” of each system and procedure, aiding diagnostics when things don’t go quite as they should. The many fault finding guides help pin those elusive problems down. For those wishing to improve the car for reliability and safety.
